

PUBLIC WORKS APPROPRIATION BILL, 1957

JUNE 25, 1956.—Ordered to be printed

MR. CANNON, from the committee of conference, submitted the following

CONFERENCE REPORT

[To accompany H. R. 11319]

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 11319) making appropriations for the Tennessee Valley Authority, certain agencies of the Department of the Interior, and civil functions administered by the Department of the Army, for the fiscal year ending June 30, 1957, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 8 and 9.

That the House recede from its disagreement to the amendments of the Senate numbered 1, 2, 6, 7, 13, 14, 19, 20, 21, 22, and 23, and agree to the same.

Amendment numbered 3:

That the House recede from its disagreement to the amendment of the Senate numbered 3, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert \$131,225,500; and the Senate agree to the same.

Amendment numbered 15:

That the House recede from its disagreement to the amendment of the Senate numbered 15, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert \$455,949,500; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 4, 5, 10, 11, 12, 16, 17, and 18.

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H. R. 11319) making appropriations for the Tennessee Valley Authority, certain agencies of the Department of the Interior, and civil functions administered by the Department of the Army, for the fiscal year ending June 30, 1957, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon and recommended in the accompanying conference report as to each of such amendments, namely:

TITLE II—DEPARTMENT OF THE INTERIOR

OFFICE OF THE SECRETARY

SOUTHWESTERN POWER ADMINISTRATION

The conferees on the part of both Houses endorse the statements in the House report concerning applications of preference customers for power and concerning service to the N. W. Electric Power Cooperative. The conferees also direct that up to \$290,000 be used for construction of transmission facilities to serve Bentonville, Ark., referred to in the Senate report. In addition the conferees direct that the Central Electric Cooperative's existing facilities for serving the Como Electric Distribution Cooperative and facilities for serving the Cuivre River Electric Cooperative, when built, be included in Central's lease operating contract with the Southwestern Power Administration. This is in keeping with the desire of the conferees that facilities constructed by the generating and transmitting cooperatives subsequent to the date of the basic lease contracts should be considered for inclusion in the contracts.

BUREAU OF RECLAMATION

GENERAL INVESTIGATIONS

Amendments Nos. 1 and 2: Appropriate \$5,680,000 as proposed by the Senate instead of \$5,270,000 as proposed by the House, and provide that of this amount \$4,970,000 shall be derived from the reclamation fund as proposed by the Senate instead of \$4,560,000 as proposed by the House.

CONSTRUCTION AND REHABILITATION

Amendment No. 3: Appropriates \$131,225,500 instead of \$125,900,000 as proposed by the House and \$138,961,000 as proposed by the Senate. The conferees are in agreement that the funds appropriated under this item shall be allocated in the following manner:

Total construction and rehabilitation	150,900,000	131,225,500

The conferees of both Houses are in agreement that no new contracts for construction of strictly irrigation features on any reclamation project shall be entered into where a repayment contract is required, until such repayment contract has been executed. The only exception to be made to this policy will be for those projects involving public domain lands. The agreement arrived at by the conferees on funds for the "Collbran project" and for "Rehabilitation and betterment of existing projects" is with the understanding that this policy will be applied by the Department.

On the Helena Valley project, the conferees are in agreement that construction should not proceed until either a contract for municipal water supply or an additional contract with supplemental water users has been executed.

With respect to the Provo River project, Utah, the conferees of both Houses are in agreement that \$300,000 of prior year funds shall be used for the diversions of water into the Provo River and Deer Creek Reservoir by the most practical method.

Investigations on the Oahe unit in the Missouri River Basin are to be completed within the total amount provided by the conferees for the Missouri River Basin investigation program.

Amendments Nos. 4 and 5: Reported in disagreement.

OPERATION AND MAINTENANCE

Amendment No. 6: Appropriates \$27,267,000 as proposed by the Senate instead of \$26,500,000 as proposed by the House.

UPPER COLORADO RIVER BASIN FUND

Amendment No. 7: Appropriates \$13,000,000 as proposed by the Senate instead of \$6,000,000 as proposed by the House.

Amendment No. 8: Strikes out language as proposed by the Senate, providing that funds appropriated under the "Upper Colorado River Basin Fund" heading should be transferred to the heading "Construction and Rehabilitation, Bureau of Reclamation."

ADMINISTRATIVE PROVISIONS

Amendment No. 9: Strikes out language proposed by the Senate providing for the construction of recreational facilities at reclamation reservoirs on a nonreimbursable basis.

Amendments Nos. 10, 11, and 12: Reported in disagreement. With respect to amendment No. 11, which inserts Senate language concerning power facilities on the Trinity division, Central Valley project, the conferees of both Houses are in agreement that the provision has only one purpose, which is to increase the authorized power development from that of 233,000 kilowatts contained in the authorizing act (Public Law 386, 83d Cong.) to not to exceed approximately 400,000 kilowatts. It is not the intent of the conferees to in any way affect the provisions of the authorizing act set out in the proviso in section 1, pertaining to the negotiations with a private utility in the area for the development of the power facilities of the project. With respect to funds appropriated in the bill for the Central Valley project, the schedule presented in the budget justifications shall not be considered as being amended by this provision.

TITLE III—CIVIL FUNCTIONS, DEPARTMENT OF THE ARMY

CEMETERIAL EXPENSES

Amendment No. 13: Appropriates \$6,765,000 as proposed by the Senate instead of \$6,500,000 as proposed by the House.

San Diego River and Mission Bay, Calif.—In view of the emergency conditions created by previous dredging work on this project, the conferees of both Houses are in agreement that the emergency work on the Federal portion of the project be accomplished in fiscal year 1957, using available prior year funds to permit local interests to proceed with their portion of the work as soon as possible.

Central and Southern Florida.—A total of \$750,000 of the funds provided for this project are to be applied to repayment of advances made by local interests.

Missouri River, Omaha to Sioux City.—As indicated in the House report, \$250,000 of the funds provided for this project are to be used for bank stabilization work in Reach 4, Upper Little Sioux-Upper Blair.

Overton-Red River Waterway.—The conferees are in agreement that the funds provided for this project should be used for study purposes only and that the action of the conferees in providing such funds does not imply commitment for construction of the project.

McNary lock and dam, Oregon and Washington.—None of the funds provided for this project are to be used for the repayment of loans advanced in prior fiscal years. In view of the substantial unobligated prior year balances available to the corps and the authority which has been granted for the transfer of funds between projects on a permanent basis, the conferees are in agreement that there is no longer need to repay loans previously advanced to this project.

Amendments Nos. 16, 17 and 18: Reported in disagreement.

Amendment No. 19: Provides that \$2,500,000 as proposed by the Senate be allocated for small authorized projects instead of \$2,000,000 as proposed by the House.

Amendment No. 20: Strikes out House language prohibiting use of funds for planning and construction of the Wilkesboro Reservoir, N. C.

OPERATION AND MAINTENANCE, GENERAL

Amendment No. 21: Appropriates \$95,900,000 as proposed by the Senate instead of \$85,900,000 as proposed by the House.

GENERAL EXPENSES

Amendment No. 22: Appropriates \$10,400,000 as proposed by the Senate instead of \$10,075,000 as proposed by the House.

FLOOD CONTROL, MISSISSIPPI RIVER AND TRIBUTARIES

Amendment No. 23: Appropriates \$62,791,000 as proposed by the Senate instead of \$56,030,000 as proposed by the House.
